

Effortless contact browsing, searching, calling and SMS

Find contacts quickly

Photo Contacts PRO enables you to find contacts fast with just a few finger taps and features five intelligent contact views. Advanced contact management is tightly integrated with pictures and Call Filtering profiles.

Tap twice on a picture to Call or Send an SMS text message to a contact.

Tap once to Select a contact.

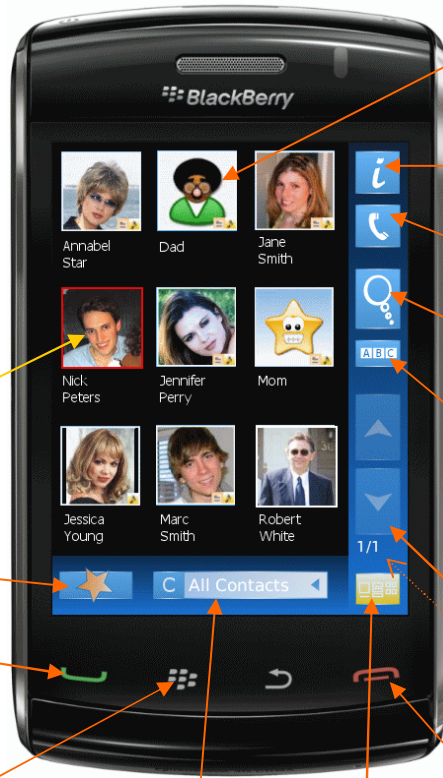

Tap-and-click to see a menu of available functions: Edit/Delete contact, Assign a photo, assign as a Favorite.

Favorite Contacts Button —Tap once to Show or Hide contacts designated as Favorites. Tap again to see All Contacts.

Click to open the default dialer.

Main Menu

Click to Create, Edit, Delete contacts, Assign a picture, Add to Favorites, Sort Contacts, open the Call Filter Manager, see Options and About Screen.

Slide your finger up/down to scroll.

Tap once to view detailed contact information.

Tap once to call or SMS a contact.

Quickly search for a contact by opening the touch keypad.

Tap on the ABC button in this area to open the vertical letter bar to jump to a contact starting with a particular letter.

Quick Page Up/Down

Shows number of contact pages in current view.

Minimize Photo Contacts (back to home screen).

Intelligent Search Keypad

Quickly find contacts with only a few finger presses. Just start typing the name, number, company name or title of the contact and Photo Contacts will search contacts. Once the contact is found, tap twice on the picture to call or SMS.

Vertical Letter Bar

Slide your finger or stylus up-down the letter bar to jump to contacts starting with the selected letter.

Text/Category Filter Bar

Shows active Category or text filter/search. Tap once to open the category selection list. Tap again to clear the search filter and see All Contacts.

Toggle Views

Tile, List1/2, Icon1/2 views.
